

FRITZ HANSEN

PELAGUS
PRODUCT FACT SHEET

PELAGUS

Pelagus has a graceful contemporary expression that sits lightly in nature and holds its own in urban environments. The collection is high on comfort and versatility. It is furniture that suits a lifestyle as diverse as that lived in urban cosmopolitans or far from the city and grounded in nature.

Table:

- Strength and durability: EN 581-1: 2017, EN 581-3: 2017, General Contract use
- BIFMA X5.5-2021

SPECIFICATIONS

Wood: New wooden, teak furniture has natural colour differences found in the freshly cut wood. Once the furniture has been exposed to the sun, these colour differences will even out. As a natural part of the aging process, the surface of teak will change when first being exposed to rain; this is the first stage of a process of wood that ages with beauty.

Metal: Aluminium is a lightweight, non-corrosive and recyclable metal that is both strong and flexible. Powder coating is used as a metal finish on the aluminium surface. The dry coating process whereby pigments are applied to metal surfaces is cured with heat for a durable, protective finish. Fritz Hansen uses powder coating on chairs, tables, shelving systems and other furniture items.

Textile: Sling textile is a water-repellent textile with high UV resistance, which makes it a good choice for outdoor use. It is made of 100% Woven Vinyl-Coated Polyester and is therefore very durable in changing summer weather and keeps the furniture seat and back from sagging.

WEIGHT

- Chair: 5.1 kg / 11.2 lb
- Armchair: 6 kg / 13.1 lb
- Lounge Chair: 8.4 kg / 18.4 lb
- Sunbed: 17.2 kg / 37.8 lb
- Armrest: 18 kg / 39.7 lb
- Table: 30 kg / 66.1 lb
- Extension Plate: 9.4 kg / 20.7 lb

COUNTRY OF ORIGIN

Wood origin: Indonesia

PRE-ASSEMBLED

- Chair: Yes
- Armchair: Yes
- Lounge Chair: Yes
- Sunbed: Yes
- Armrest: Yes, but needs to be mounted on sunbed
- Table: No
- Extension Plate: Yes, but needs to be mounted on table

PACKAGING

The units are shipped in a recycled cardboard box.
All packaging material can be recycled.

CLEANING AND CARE

Find recommendations for cleaning and care at:
[fritzhanzen.com/maintenance](https://www.fritzhanzen.com/maintenance)

REPAIR, DISPOSAL AND REUSE

In case of repair and disposal the units can be disassembled into parts. All parts can be recycled. Check local regulations for recycling options and whether there is potential for reuse.

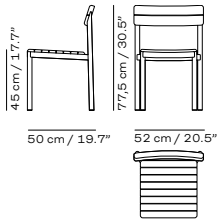

WARRANTY

Fritz Hansen provides a five-year warranty on standard products against defects in materials and workmanship.

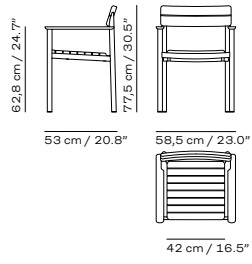

Additional warranty conditions can be found at:

CUSHIONS

DESCRIPTION

Add extra softness and comfort to the Pelagus series. Covered in a weatherproof and durable textile, the cushions are filled with a resilient quick-dry outdoor foam filling that provides firm and comfortable support that remains the same year after year.

SPECIFICATIONS*

The quickdry outdoor foam provides a firm and comfortable seat that retains its shape year after year. The open-cell structure allows both water and air to pass through ensuring the cushion dries exceptionally quickly, even after a heavy downpour. To ensure cushions remain beautiful over time, it is good practice to avoid them being left wet for prolonged periods, e.g., by turning them upright to let water run off or storing them in a dry environment.

*For details specific to UK/IE go to p. 8.

IMPORTANT NOTE!

Under current UK law, Fritz Hansen is not able to provide outdoor cushions and pillows with the same filling as the regular collection. We still offer cushions and pillows in an outdoor textile with weatherproof properties, but the filling is not weatherproof due to stringent (indoor) fire regulations. We therefore recommend that you bring cushions and pillows indoors in heavy rain and when they are not in use.

The FR cold foam provides a firm and comfortable seat that retains its shape year after year. The FR cold foam is not weather resistant, and therefore it is recommended to store the cushions indoors when not in use and during heavy downpour. To ensure cushions remain beautiful over time, it is good practice to avoid them being left wet for prolonged periods, e.g., by turning them upright to let water run off or storing them in a dry environment.
