# DRACHMANN

The signature Drachmann series draws inspiration from the beautiful garden of Danish romantic poet and painter, Holger Drachmann. A careful balance of Nordic nostalgia and modern simplicity underlies its enduring popularity. Made of 100% FSC-certified teak wood selected for its strength and beauty over time, untreated teak will take on a beautiful silver-grey patina.

## SPECIFICATIONS

**Wood:** New wooden, teak furniture has natural colour differences found in the freshly cut wood. Once the furniture has been exposed to the sun, these colour differences will even out. As a natural part of the aging process, the surface of teak will change when first being exposed to rain; this is the first stage of a process of wood that ages with beauty.

# CUSHIONS

## DESCRIPTION

Drachmann cushions are custommade to fit the series and are highly weather-resistant. The upholstery textiles are Oeko-Tex® certified, colourfast, lightfast, water and dirt-repellent, and mildew-resistant. The cushion dries exceptionally quickly as the foam has an open-cell structure that allows water and air to pass through. The quick-dry outdoor foam provides a firm and comfortable texture that remains the same year after year.

## SPECIFICATIONS\*

The quickdry outdoor foam provides a firm and comfortable seat that retains its shape year after year. The open-cell structure allows both water and air to pass through ensuring the cushion dries exceptionally quickly, even after a heavy downpour. To ensure cushions remain beautiful over time, it is good practice to avoid them being left wet for prolonged periods, e.g., by turning them upright to let water run off or storing them in a dry environment.

#### IMPORTANT NOTE!

Under current UK law, Fritz Hansen is not able to provide outdoor cushions and pillows with the same filling as the regular collection. We still offer cushions and pillows in an outdoor textile with weatherproof properties, but the filling is not weatherproof due to stringent (indoor) fire regulations. We therefore recommend that you bring cushions and pillows indoors in heavy rain and when they are not in use.

The FR cold foam provides a firm and comfortable seat that retains its shape year after year. The FR cold foam is not weather resistant, and therefore it is recommended to store the cushions indoor when not in use and during heavy downpour. To ensure cushions remain beautiful over time, it is good practice to avoid them being left wet for prolonged periods, e.g., by turning them upright to let water run off or storing them in a dry environment.
