

MERMAID
FAIRY TALES COME TRUE

At first glance, the Mermaid reminds us of the famous Hans Christian Andersen fairy tale that most people associate with Denmark. Designed in 1960, Hans Bølling's character goes beyond fairy tale and embodies an ethereal feminine aura, offering a sense of serenity.

Mermaid brings together sophisticated and simple Danish design. New expressions are easily created by turning her head, fin, waist or arms. The lower part of her body is made of oak wood while the upper parts are made of maple wood.

Material
Handmade in oak and maple wood

Dimensions
H 17cm W 13cm
